(Prices effective November 2017)

The Silver Package \$850

This package provides coverage of your wedding service ONLY. We arrive about three hours early to set up and, when possible, record the location and pre-ceremony activity. We record the entire ceremony with three to four HD cameras and hidden wireless microphones on the groom and officiant so you hear every word of the vows. We use digital audio recorders to capture any music, singing and readings during the ceremony. And we record your receiving line and departure from the church. This package includes three copies of your wedding video in cases with personalized case and disc labels.

The Gold Package \$1050

This package provides coverage of your wedding and reception. In addition to all of the services provided in the Silver Package (above), we record highlights at your reception. We record shots of the arriving guests and the venue before you arrive. We record your wedding party's grand entrance, cutting the cake, toasts, testimonials, your first dance, the bouquet and garter, plus highlights of you and your guests on and off the dance floor. This package includes three copies of your wedding-day video in cases with personalized case and disc labels.

The Platinum Package \$1250

This package provides start-to-finish coverage for your wedding and reception. In addition to all of the services provided in the Gold Package (above), we record highlights of the entire reception, from your grand entrance to the last dance.
